

Vinaka Vakalevu!

Waya Island would like to thank you for supporting Fiji's animal health, welfare & education clinics. With your help & kind donations our team were able to host 3 free spay & neuter clinics. Free health checks with flea, worming and other treatments.

The island is full of gratitude for the support and dedication of Dr. Roz Holland & Dr. Barry Springfield. None of these Free services would be possible without the support from our amazing sponsors in Australia. With your help & support we can do so much to help & eliminate the suffering & really make a difference to many lives.
